MANY PRIZES

Awarded at the Planters Hard-
ware Company's Opening.

Little Miss Willie Ritter Wins
Biscuit Making
Contest.

The Planters Hardware Com-
pany had its formal opening Sat-
urday and there were a number of
attractive features arranged by
this enterprising new company.
The General Manager, Mr. W. S.
Harned, the Secretary, Mr. C. S.
Jackson, and Lee Cayce, W. S.
Cheatham, A. M. Cooper, D. D.
Cayce and Mrs. Ida F. Johnson,
were in charge.

The baking contest for a little
range, between little girls, occa-
sioned much rivalry and lively in-
terest. There were 127 contestants
registered and 106 made up and
baked a pan of biscuits, the best
biscuits to be awarded the prizes.
The little girls were busy all day
in the big show window, two or
three working at a time. The
judges were Messrs. W. H.
Adams, W. A. Foard and W. D.
Ennis. There were many highly
successful contestants, in fact, most
of them showed commendable skill
at biscuit-making. The prizes
were awarded as follows:

1st—Willie Ritter, daughter of
Wm. Ritter, Little Buck Range.
2nd—Fannie Lander, daughter
of J. W. Lander, box of box boss.
3rd—Mattie Major, daughter of
M. S. Major, box of candy.

At the opening a number of the
leading implement houses were rep-
resented.

An exciting feature was a draw-
ing contest in which fifteen prizes
were awarded.

Crofton, Ky., March 23.—Thomas
Bond and John Renshaw, well
known farmers living just east of
Crofton, became involved in a diffi-
culty yesterday and as a result
Renshaw was shot in the hand. It
is said that Renshaw accused Bond
of permitting his dogs to chase his

row was thus precipitated. The
shooting was done in the road near
Bond's house.

The Mormon Settlements in Mexico

In Them Polygamy is Practiced Without Any Attempt at Concealment.

Polygamy among the Mormons of the United States is a thing of the past, in so far as the open practice of the creed is concerned. The passage of the anti-polygamy act, better known as the Edmunds act, accomplished this fact. But this does not mean that the practice has been abandoned in America.

I believe it is safe to say that the followers of the Mormon religion are, as a whole, as sincere in the belief in their creed as the members of any other religious faith in the United States, and those who practiced polygamy did so only as a religious duty. When the Edmunds act became a law, there were three courses open to those Mormons who had been living polygamously: first, the man with two or more wives might cease marital relations with all except one, obeying the law in good faith; second, he might en-

western part of the state of Chihuahua were purchased, and a half-dozen colonies established there. Other colonies are scattered along the eastern slope of the Sierra Madre. The population of the several colonies varies from a few score to a few hundred people, the total population of the colonies being in the neighborhood of 2,000.

Here polygamy is practiced openly and without any effort at concealment, but in strict accordance with the teachings of the church. According to a correspondent who spent eight months among the people, investigating the people and conditions in the guise of a health-seeker, in no one of the colonies is there to be found a brothel, a gambling house or a saloon. Neither have they jails or policemen. Mormon mothers are also said to be very careful regarding the social rela-

desire to continue those polygamous relations clandestinely, taking his chances of arrest and imprisonment, or, third, he must remove his several families to some locality where the Edmunds law did not apply.

Many Mormons naturally rebelled at the thought of abandoning any of their wives; they were also too honest to secretly disobey the law, so there was but one course left open to them, to leave the jurisdiction of the United States. Their eyes naturally turned to Mexico, and representatives of the church were dispatched to the City of Mexico to make investigations.

Assurances were received from the government there that if the polygamous Mormons colonized in that country, and lived peaceable, inoffensive lives, obeying all the other laws, their family relations would not be interfered with. Upon these assurances several large tracts of land in the

vicinity of their colonies, and the communities pride themselves on the good order maintained in their social gatherings.

While the practice of polygamy is openly maintained in these colonies and is as stoutly defended by the wives as by the husbands, there is no doubt but that it is gradually dying out. While the Mormon church teaches that polygamy is divinely sanctioned, it also teaches that Mormons should obey the law of the land, be it good or bad; and the fear of stirring up the Mexican authorities probably operates as a restraint. The younger generation also realize that with the increasing pressure of the struggle for existence and the increasing density of population, the practice is unsuited to the future. The same tendency will be to refrain from plural marriages, as is but natural under the circumstances.

JAMES BRISTOL GREENE

An Attractive "Den"

SUITABLE haunt for the mere man, fitting resort for the superior animal, remnant, no doubt, of the old cave days. But now, as then, it is the woman who arranges the den and makes it comfortable. "She picked out a nice, dry cave, instead of a heap of wet leaves to lie down in; and she strewn clean sand on the floor; and she lit a nice fire of wood at the back of the cave; and she hung dried wild horse skin, tall down, across the opening of the cave; and she said: 'Wipe your feet, dear, when you come in, and now we'll keep house,'" according to the husband of Kipling. Now the woman provides the man with a "den" all to himself, or, at least, should do so if she is an intelligent and sensible person; but the cave is no longer viable, and the

necessary, not so much because they are places to smoke in, as because they are places where the family, or at least the men of the family, can sometimes be alone. For it is usual now for smoking to be allowed in nearly every room in the house. I think in my old-fashioned mind, that at least one room should be kept free from smoke, and that that one should be the drawing room or parlor, which must be made as dainty and beautiful as possible so that people will naturally refrain from polluting it. The drawing room, in consequence of its daintiness and beauty, is not to be avoided as a sitting room. It must be used as much as possible and made to exert a refining influence upon all who assemble there. In the absence of a possible smoking room, the hall is the case when it is square and roomy,

A DESIGN FOR A DEN.

will horse skin is not usual in the den to which we are accustomed. It is easy to provide a den or a smoking room, because so little furniture is required for it; there should be no useless ornaments, and curtains are out of place. A built-in fireplace quickly gives a furnished look to a room, some comfortable chairs, a smoking table, shelves for books, and racks for papers are all the requirements of the den. Any boy who knows anything about carpentering can make the pipes and holes and the settle shown in the illustration. There must, of course, be a smoker's cupboard in every smoking room, but nothing in the way of drapery, from which it is so difficult to shake the smell of tobacco.

The den and smoking room are

may be used as such; comfortable chairs round a blazing fire will give the feeling of ease necessary to the enjoyment of a pipe or cigar, but solitude and the feeling of retirement, of course, are lost in so public a place as a hall. Mr. Jennings says in his book, "Our Homes and How to Beautify Them": "As to the decoration of a smoking room, its keynote should be a rich shadiness of color. This is so, but probably most people will prefer more definite suggestion. Wood is the best wall covering, as it does not retain the smoke, and as soon as we have dark paneled walls, we have 'shadiness comfort.' Oriental carpets, and their colors combined in the comfortable chairs which are necessary to the smoking room, will instantly give richness."

CAN'T BE SEPARATED

Some People Have Learned How to Get Rid of Both.

Backache and kidney ache are two sisters.

You can't separate them. And you can't get rid of the backache until you cure the kidney ache. If the kidneys are well and strong, the rest of the system is pretty sure to be in vigorous health.

Doan's Kidney Pills make strong, healthy kidneys.

Mr. Henry Murphy, of 648 Broadway, Memphis, Tenn., professional nurse says: "For a year or two pain and weakness across the loins and difficulty with the kidney secretions indicated that my kidneys were either overtaxed or weakened. All my knowledge of medicine failed to bring relief, and ever anxious to get rid of the trouble before it became chronic, I got a box of Doan's Kidney Pills at Hammer & Ballard's drug store. They performed their work very satisfactorily. I know of a great many others in Memphis who have been benefited by Doan's Kidney Pills."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name--Doan's--and take no other.

CELEBRATED ANIMAL.

A Matter of Great Interest to Stock Dealers.

Attention is called to the advertisement of Black Alycone, the fine stallion which will make the season at J. J. Vancelev's farm, from April 10 to July 10. Black Alycone is standard by breeding and as a sire and has proven himself not only a sire of speed but of road qualities and fine action that makes his colts desirable for the eastern market. If you desire to improve your stock, you would do well to correspond with J. E. McGowan, Hopkinsville, Ky., R. F. D. No. 1, who has this fine animal in charge and who will cheerfully furnish any information desired on the subject. See the ad. which appears in this impression of the Kentuckian.

SEVERE ATTACK OF GRIP

Cured by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed worth the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." For sale by C. K. Wyly, druggist.

Gen. Samuel Thomas' widow and favored children have endowed a New York hospital with \$50,000 and provided generously for a disinherited son.

So Sweet and Pleasing in Taste

Mrs. C. Peterson, 625 Lake St., Topeka, Kan., speaking of Ballard's Horehound Syrup, says: "It has never failed to give entire satisfaction, and of all cough remedies, it is my favorite, and I must confess to my many friends that it will do, and has done, what is claimed for it--to speedily cure a cough or a cold; and it is so sweet and so pleasing in taste." 25c, 50c and \$1 bottle at R. C. Hardwick's.

The Sabbath Observance society, of Philadelphia, has sworn out warrants against newspaper publishers and business men with a view to testing the blue laws.

I owe my whole life to Burdock Blue Balm. Scrofulous sores covered my body. I seemed beyond cure. B. B. B. has made me a perfectly well woman." Mrs. Chas. Hutton, Berville, Mich.

SMASH THE MACHINE.

The Court of Appeals will decide the Beckham eligibility and Marchan injunction cases today and there is much nervous anticipation in machine circles as to what will be the outcome. The Beckhams are claiming that five of the Judges will decide in their favor, but their confidence has been greatly weakened since the cases were submitted last Wednesday. The gang is showing signs of demoralization over the possibilities of a turnaround in their unlawful plans. Col. Beck's attitude in his closing speech took the ground that Beckham's eligibility is not properly before the Court, and it is generally believed that the Court will take this view of that matter. He also showed

that the proposed primary election will not be held under the law in a number of respects and cited the court to its own recent decision that all primary elections are required to be held under the law. If this question is passed upon at all, the court is practically sure to sustain its former decision. A decision adverse to Beckham and the machine in either case will complete their rout and insure their defeat. It is already evident that at least half of the machine candidates are already doomed to defeat. J. T. Griffith, for treasurer, John Cheneault, for Auditor, W. P. Thorne for Lieut. Governor, and Robt. L. Green, for Clerk of the Court of Appeals, all anti-machine candidates, are making winning races and it is not believed they can be defeated, if the votes are counted. Other machine candidates are hard pressed, including Beckham himself. After this week, the political pot will begin to boil in earnest. Democrats of Kentucky are getting ready to smash the machine.

Insures Bush's Success.

It is certainly very unfortunate that the man that should have made the awful blunder with which he is credited. He is said to have admitted his guilt and pleads ignorance as an excuse. No one can reasonably doubt his honesty in the matter, but it does seem that five years' experience on the bench should serve to familiarize a man with the statutes, especially those governing his own office. This mistake, if it may be called that, will place Judge Cook in a very awkward position in the contest soon to be brought to an end, and will certainly cost him a large number of votes; probably enough to insure the nomination of his opponent, Judge Bush. Naturally, the affair has caused quite a sensation throughout the district and is the chief topic of conversation. The friends of Judge Cook claim that reports concerning his conduct in office have been exaggerated, and that he will be able to clear his skirts to a certain extent. As the matter now stands, however, he is surely losing ground in some quarters.—Pembroke Review.

Tipped as a Winner.

Mr. Bush is a lawyer of splendid attainments, and stands high among his brethren of the bar as a fine judge of law, and possessing all the requisite qualifications for making a worthy successor to the late lamented Judge Grace. Mr. Bush entered the race considerably handicapped on account of not having the large acquaintance of his opponent, Judge Cook, but he is making him a formidable opponent and has the race well in hand, and will undoubtedly win the nomination. The unearthing of Judge Cook's record in dealing with his master commissioner in Trigg county, if true, has placed him in an unenviable position, and will cost him many votes. The full details of the transaction will be found in this issue. Mr. Bush is a native of Christian county, and has a large following. Fairview Review.

SAW STEEL BARS.

Three Prisoners Charged With Murder Make Their Escape.

Will Morrison, of Elmo, Christian County, One of the Men at Large.

By sawing their way through steel locks and bars, Murray Petway, William Morrison and Arthur Stiles escaped from the Davidson County, Tenn., jail, in Nashville, some time Wednesday night or early Thursday morning. The startling discovery that the prisoners, all of whom were charged with murder, had escaped was made by Jailer J. W. Wright, when he reported for duty about 6 o'clock Thursday morning.

The double padlocks on the door of the cage occupied by Morrison and Petway had been sawed and the steel bars over the opening removed.

Stiles had gained possession of a wrench, which he used for pincers, and succeeded in tearing a hole through the steel partition between the cells. The sheeting of steel was broken out in small pieces, and an opening was made through which the fugitives gained admission to the cell occupied by Petway and Morrison, and escaped with them.

It is believed that the men took the Cumberland river and pulled out in a skiff down stream.

The sheriff of the county has offered a reward of \$100 each for the arrest of the men.

Morrison was recently given 20 years for the murder of operator Douglas Coffman at Springfield nearly four years ago. The case is now in the hands of the supreme court. Petway is also under sentence of 20 years for murder and an appeal to the Supreme Court is now pending.

Stiles is charged with the murder of a railroad man last August and has not yet been tried.

Unnatural Women.

It is the great misfortune of many of the sufferers from womanly diseases that they have accepted the idea that such diseases are a part of woman's natural heritage. The reason for this wide acceptance of womanly suffering as natural and necessary is twofold. On the one hand the number of women who suffer is so great that the woman who is exempt from womanly weakness seems to be an anomaly, a contradiction. On the other hand, the general failure of local practitioners to effect a cure of womanly diseases leads to their acceptance as incurable.

The first thing that a woman needs to realize is that womanly diseases are unnatural and in general unnecessary. It would be as reasonable to suppose that the natural type of man was the man dwarfed, misshapen, crippled and deformed, as to suppose that the natural condition of woman was one of misery and suffering. Disease is unnatural. Where there is one woman who stands free from the diseases which so commonly afflict her sex, she is the standard of womanhood. Every woman should try to be like her. Almost all women could be like her if they used the right means.

The proof of this statement lies in the fact that Dr. Pierce's Favorite Prescription has lifted hundreds of thousands of weak and sick women to the plane of perfect health. It has cured chronic diseases of years' standing; cured when all hope of cure had passed and physicians had said there was no cure. Irregularity, debilitating drains, inflammation, ulceration and female weakness have all yielded to "Favorite Prescription," and been perfectly and permanently cured.

No woman, however serious her condition, should neglect to attempt a cure of her disease by the use of "Favorite Prescription." Dr. Pierce invites sick and ailing women, especially those suffering from chronic forms of disease, to consult him by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, New York.

Mr. E. D. Hackett, a prominent merchant of
Memphis, Ky., writes as follows for years from
constipation and indigestion and was prevailed
upon to try Dr. Carlstedt's German Liver
Powder by one of his friends. He had done great good.
He gave it a single trial, when he began to feel
better at once. He tried with great care, Mr. Hackett
was surprised to find himself cured of this most
distressing of all ailments. He is now a
well man and does not use any medicine. If
you are afflicted in this manner, give it a trial.

STICKS TO HIS CROWD.

But Not His Subject all the
Time.

Next Wednesday night, March
2, Rev. Sam P. Jones, the evangelist
and orator, will lecture at Holland's
opera house and seats should be
secured at once if you wish to hear
him. His subject will be "Medley
of Philosophy, Fun and Facts."
Sam Jones' fame as an original
speaker, evangelist and man has
caused widespread talk and criticism.
As a character he is so unique
that his extreme oddity gives him a
picturesqueness which is peculiarly
and exclusively his own. The Evening
Telegram, published at Portland, Ore.,
has the following to say concerning his
recent appearance at that place:

"An immense crowd gathered at
Gladstone Park last night to hear
Rev. Sam Jones lecture, and if any
one there failed to get the worth of
his money in the language of Mr.
Jones, it was because he had no
place to put it. If any one there
last night expected a brilliant oratorical
display with fireworks and fringe,
that one was disappointed. Sam Jones
does not handle that kind of goods.
He is a plain Georgia preacher. He
understands human nature as it grows
in this country, and he is never so
happy as when thumping the wind out
of bombastic frauds, upsetting the
folly of fashion and overturning the
little mud gods which men and
women have erected round about
them. The language he employs is
the cream of the natural dialect of
the common people of the South,
and he uses it most effectively. He
did not stick to his subject all the
time, preferring, as he said, to
stick to his crowd. Now he broke
break forth in some bit of foolishness,
driving home a fact or an illustration,
again he would climb to the
beautiful heights, and about the
time his hearers had reached the
summit he would let them fall with a
redolent touch."

pretty lively times in their discussions.
Judge Bush charges that 49 cases
have been appealed from Cook's

been reversed. Judge Bush says
that if two-thirds of a man's work
is wrong he should be discharged.
He brings other charges against

The Prisoner of Zenda.

The attraction at Holland's Opera
House on March 27, will be the
dramatized edition of the cream of
Anthony Hope's genius "The Prisoner
of Zenda." This fascinating
story is to a greater or less degree
familiar to all, and its intense situations,
its episodes of thrilling adventures,
so originally conceived and
so brilliantly executed, have made
this play the one successful
romance of the age. Plays have
come and plays have gone, but the
popularity of "Zenda," like the
water of the babbling Brook runs
on forever. Its success this season
has far exceeded in the line of
achievement that of its previous
achievements, enormous audiences
greeting this attraction wherever
presented. The same scenic splendor
that signalized the New York
production has been duplicated in
its entirety by Mr. Ernest Shipman,
who is directing the present tour.
A long cast, headed by that exceptionally
clever romantic actor, Thos. B. Alexander, appearing as
"Rudolf, King of Rumania," and
the beautiful Eloise Elliston, as
the "Princess Flavia," will be
found on the program. Lovers of
an evening's entertainment that is
food for the imagination, pleasing
to the fancy, satisfying to the intellect
and thrilling the senses, should not
miss seeing "The Prisoner of Zenda."

APRIL SHOWERS

Followed by Snow Squalls And
Frosty Nights.

Hick's summary on April weather
is about as follows:

April 1 and 2 are reactionary
storm days, on or about which may
be expected rain and thunder
storms. Mercury period will be
central on the 4th. Look for
cloudy and unsettled weather, with
snow squalls in the North for several
days. About the 7th much
warmer, and storms of rain, with
some hail, thunder and wind, will
pass Eastward over most parts
of the country from the 5th to the
11th. About these dates look first
for high temperature, low barometer,
rain, thunder and hail, followed
later by westerly gales, rising
barometer with fitful squall of
snow and sleet Northward, and a
very general and decided change
to colder. After a few mornings of
chill and frost, over all sections
central and Northward, change to
warmer, with falling barometer
and more April storms will center
about the 13th and 14th. The transition
of the season through the
month of April brings, as a
rule, scattering "April showers" at
any time. Much warmer about the
17th, with very decided storms from
the 18th to 21st, running their
regular course from West to East
across the country. This period
will be followed by westerly gales
and very cold nights. The next
period in which storm conditions
will develop and run their
courses from west to east, will be
showery, stormy conditions will not
pass off until about the 28th, after
which there will be a change to
much cooler and frost northward.
Warmer as the month goes out.
April will be a month for industries.
There will not be an excess
of general rains, but rather the
other extreme.

DYNAMITE EXPLOSION.

Bad Accident at Ore Banks in
Trigg.

Cadiz, Ky., March 21.—A serious
and perhaps fatal explosion occurred
in one of the ore banks of the
Hillman Land and Iron company,
between the rivers, in the extreme
western part of this county.

Frank Bradboy and Willie Littlejohn,
had tried to make a blast with
dynamite, but it failed to explode,
so they decided to put powder in
the hole and make the blast that
way. In so doing the dynamite
was discharged, Bradboy's breast
was torn and his face and scalp
badly mutilated. It is feared he
will lose both eyes, and possibly
his life.

Littlejohn received a scalp wound
and his face was injured.

The Goebel Murder.

DOINGS AT S. K. C.

to gain popularity. Practice is had
on Monday and Saturday evenings
of each week.

Adams and Teddy Quilty, who will
play on the S. K. C. baseball team
the coming season, arrived last
Saturday.

Cadet Frank is visiting his
home at Paducah this week.

The young ladies' magazine club
increases in popularity.

Prof. H. C. Smith has recently
purchased a gramophone and en-
tertains the girls a great deal during
recreation.

The "Salmagundi Club" is perfecting
plans for its tennis courts
and will soon begin to play that
popular game.

Claud Sisk, after spending three
weeks with his parents at White
Plains, returned to school last
Monday.

Bros. S. J. Mitchell and J. W.
Gant, of the Christian church, visited
Prof. Kuykendall the first of the
week.

Captain Anderson is on the sick
list this week, suffering from an
abscess in his throat.

As soon as the company medals
arrive, competitive drills will be
held by each company weekly, the
medals to be worn by the best
dressed cadet in each company.

Messrs. Pyle, Wallace, West and
Goldthwaite, from the city, have
recently matriculated at S. K. C.

Prof. Gordon preached two interesting
sermons at the Christian
church at Pembroke last Sunday,
morning and evening.

The spring uniform for the cadets
has not yet been decided upon. It
will probably be either the regulation
army officers' white duck or the
khaki as of last spring. The
khaki will very likely be the regulation
for parade and dress occasions.

The interest in baseball has
started in earnest since the weather
permits of practice out of doors.
The S. K. C.'s first team's suits
have arrived and are on display in
the show windows of Hopper &
Kitchin. They are of the best
quality that can be had and are in
the college colors, with "S. K. C." monogrammed on the sweaters and
shirts. The team this year will be
selected from the following young
men: Edgar Evans, James Win-
free, David Daniel, Browne Whitlow,
Melias Lion, Hardy Hadden, T.
Cates, James Anderson, Pulliam
Smith, Newton Atkinson, Tom
Adams, Earl Stone, G. E. Edwards,
Charles Casner, Teddy Quilty,
Napoleon Riley. The team will be
managed by Mr. C. W. Head, who
officials as manager last year.

SUFS FOR \$15.00.

Administrator of Bob Cooley Asks
Above Amount.

The administrator of R. W.
Cooley, of Kelly, who was killed by
the cars at Hanson, Hopkins county,
several months ago, has filed
suit against the railroad company
for \$15,000 damages. The plaintiff
states that deceased was walking
along a portion of the track, which
had been used by pedestrians for
the past fifteen years, and was
struck by a double header. He
further alleges that Cooley's death
was due to the negligence of the
agents of the company in charge of
the train.

WEEDS

Consumption is a human
weed flourishing best in weak
lungs. Like other weeds it's
easily destroyed while young;
when old, sometimes impossible.

Strengthen the lungs as you
would weak land and the
weeds will disappear.

The best lung fertilizer is
Scott's Emulsion. Salt pork
is good too, but it is very hard
to digest.

The time to treat consumption
is when you begin trying
to hide it from yourself.
Others see it, you won't.

Don't wait until you can't
deceive yourself any longer.
Begin with the first thought
to take Scott's Emulsion. "If
it isn't really consumption so
much the better; you will soon
forget it and be better for the
treatment. If it is consumption
you can't expect to be
"fixed" or "cured" if you will
begin in time, and will be
regularly in your treatment
you will win."

Scott's Emulsion, fresh air,
rest all you can, eat all you
can, that's the treatment and
that's the best treatment.

We will send you

a little of the Emulsion
free.
Be sure that this picture in
the form of a label is on the

SEVERE ATTACK OF GRIP

Cured by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, editor of the Enterprise, Shorthville, Mo. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not the usual course of one bottle of the grip had bid me adieu. For sale by C. K. Wiley, druggist."

How are you, anyway? Dr. Caldwell's Syrup Pepsin is a perfect laxative. Sold by C. K. Wiley.

CAN YOU AFFORD

?

To put your handsome "RADIANT HOME" HEATER out in the coal house for the summer, take risk of breakage and rust, and pay inexperienced help to haul clean and set it up again next fall? Now think about this as a money-saver and satisfactory arrangement and have us send for your stove. We are responsible for all breakage and keep them fully insured while in storage. The plated rimming is detached, every piece carefully wrapped, your name and date plainly marked on tags securely fastened to the stove and to each separate part, and an itemized receipt is sent to you showing what we are to return, amount of charges and repairs, if any are required. Notify us when you want the stove returned and we replace it already for fire, black parts well polished, plated work highly burnished and looking just like new. Our men are careful and make no noise or dirt in removing or replacing stoves. That the charges are fair and the service satisfactory is amply shown in the fact that those who have stored stoves with us for years are now giving us their business for this year. Think this over and ask your neighbor what he thinks about it. We only mentioned "Radiant Home," but for storage any name will do. We take all that offer, but this is a good place to remind you that 5 years service has not yet made demand for one piece or repair for "Radiant Home" Stoves. You know the fire pots are fully guaranteed for five years.

FIRE NEAR KIRKMANVILLE.

Horses Ran From Burning Building and Escaped Injury.

Mr. F. B. McCown, of near Kirkmanville, had the misfortune to lose his stable by fire a few days ago. The building contained a lot of hay and other provender, which was also consumed. The fire occurred about 9 o'clock in the morning and the origin is a mystery, as no one had been about the stable after early feeding time.

Several head of stock were in the building, but the doors had been left open and just as the flames were discovered issuing from the roof the animals ran out and escaped injury. The loss is probably \$350. The building was insured for \$100.

The zinc and lead interests in Marion, Crittenden County, Ky., are assuming very great proportions. On the 123 acres of Reed land adjoining that city there are such great outcrops of mineral that it is difficult to even estimate the value of the lead and zinc ores and fluor spar. At the present price of lead ore twelve tons daily will pay each lot owner and shareholders in the Reed Mining Company (limited to 500 in number) over \$400,000 yearly. A 50x150 city lot with broad streets in front and alleys in rear, together with 1000 shares of stock in the Reed Mining Company, costs Fifty Dollars. This secures a warranty deed for the city lot and \$1000 in full paid and non-assessable stock. Remittances may be made through either bank in Marion, or direct to the Reed Mining Company, Marion, Ky., and the deed and stock certificate will be made and promptly returned.

CIRCUIT COURT.

Coffey Murder Case Will Go to Jury Friday.

The trial of the Coffey murder case is still in progress. The testimony for the defense will probably close to-day and it is expected that the speaking will begin to-morrow. As there will be several speeches on each side the case will not likely go to the jury before Friday. The defense is relying upon an alibi.

ABOUT PAINTING!

SPRING TIME Reminds Us Of PAINTING

Nature does most of her painting at this season. She prefers green, but if you like some other color better we guarantee we've got it. We've got it ready-mixed and the lead and oil for you to mix it. In ready-mixed we sell the paint that has been sold here for 26 years and never a single complaint made of it. That's the

Sherwin & Williams Company's Paint.

It covers more surface than any other paint and lasts longer and looks better. That's why it is still sold here in such large quantities. Half car load a year. Have cheaper paints if that's what you are looking for. Bound to please you in one way or the other.
